

Testimonial From Alycia

"Ms Chen has been tutoring me for nearly three years now ever since my psle years back in 2012 after a recommendation from my neighbor. Starting with mathematic, I have not only improved academically, I have also gained confidence to challenge myself to even more strenuous questions which has allowed me to easily score an A in most of my topical tests. This was something I could only dream for before Ms Chen's coaching.

Not too long ago, Ms Chen has also begun teaching me physics. With her guidance and concise teaching, I have cultivated a greater understanding for the subject allowing me to be in advantage compared to my other peers. Mis is indeed an amiable teacher who is truly passionate in teaching. She is sincere in helping and bringing education to others."
